

PowerLite® 815E

3LCD Extreme Short Throw Lamp-Free Laser Display with 4K Enhancement¹

Take classroom and meeting room displays beyond the limits of flat panels.

- Stunning color and impactful image quality with 3-chip 3LCD technology** — virtually glare-free from anywhere in the room, unlike flat panels; 5,000 lumens of color and white brightness²
- Astonishingly smooth display with 4K Enhanced resolution¹** — Epson's advanced pixel-shifting technology combined with innovative frame interpolation, HDR and scene adaptive gamma image processing provides visibly smooth and more detailed picture quality
- Large, up to 160" diagonal image** — 80" image from just 1" away from the wall or 100" from 4" away; at under 28 pounds, this lightweight projector can deliver an image up to 160" diagonal; 4.5 times larger than a 75" flat panel
- Built-in flexible digital canvas for easy integration** — 16:9 native aspect ratio with additional support for ultra wide 16:6 and 21:9 for equitable conferencing experience in meeting rooms
- Lamp-free technology** — a virtually maintenance-free laser light source of up to 30,000 hours³ combined with a sophisticated re-engineered cooling system eliminates the need to ever purchase or replace a lamp again
- Fully loaded to support your latest needs** — multiple HDMI® ports, built-in wired/wireless networking, HDBaseT®, RS-232c connectivity and Miracast®; dynamic dual speaker sound system to fill virtually any room
- Streamlined setup** — digital zoom and image shifting make image alignment easy for desktop or wall-mounted display; Epson Setting Assistant app⁴ ensures easy installation by automatically smoothing edges and corners
- Complex tasks made easy** — with timesaving tools such as Wake On signal; multiple EDID settings with digital image correction for ease of installation for nearly any image size/aspect ratio; built-in media player supports Epson® content management software

¹ 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen. ² Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. ³ No required maintenance for the light source for up to 30,000 hours (Extended Mode) or 20,000 hours (Normal Mode). Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. ⁴ Internet connection required for download. Data usage fee may apply. ⁵ For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats.
